

Bergamo 2-Tone

Beauty Times Two.

What's next? What's now? It's what stunning design is all about. And it's the reason we created the Bergamo 2-Tone Collection. We hand-apply not one stain but two—a primary color enlivening the enhanced grain and a second undertone adding intrigue. Each color stays true, never mixing, always unique in clarity, transparency and hue. It's nothing less than beauty times two.

2-Tone makes its debut in the trend-setting Bergamo Collection—a subtle, matte spin on hardwood that blooms in bright sunlight and complements furniture, fabric and drapery hues beautifully. Choose from character-grade Hickory and Maple floors wire brushed and hand-distressed, then finished with our meticulous multi-step staining process. Available in primary tones of earthy or gray, accompanied by vivid undertones to take on a vibrantly new look.
